HELP US TO CELEBRATE THREE DECADES OF DANCE!

For 30 years, The Dancing Wheels Company & School has been using inclusive dance to entertain, educate, and break barriers so that *all* people of *all* abilities can participate in the arts as equals. Since our beginning in 1980, our unique brand of dance has touched the lives of over 4.5 million people worldwide!

Our exciting 2010/2011 season signifies a new era for the Company; one that will open opportunities and continue to build new and innovative programming.

Highlights of our 30th year include:

- Reconstruction of the sets and costumes for our beloved story ballet, *The Snowman*, making the production more affordable and transportable for the enjoyment of future generations!
- The creation and production of our new story ballet, *Pinocchio!* Exciting choreography, sets, props, and costumes will make this delightful story ballet a hit with the young—and the young at heart!
- With programming requests at an all-time high, The School of Dancing Wheels is growing and developing new and innovative outreach programs. From school residencies to community classes, we are working to provide more hands-on learning opportunities for children of all abilities and ages!
- The first training manual and DVD on physically integrated dance. This step-by-step guide will codify our technique and bolster the movement of integrated dance internationally. As requested by educators and students for years, it is befitting that we announce its availability this season!
- The 30th year benefit gala! The Dancing Wheels Company & School will take to the stage for a retrospective concert to culminate this anniversary year. We will reflect on great memories, look to a bright future, and a nationally-acclaimed guest artist will help us to celebrate the 1980's like no other!

YOUR SUPPORT OF THESE PROGRAMS
WILL HELP US TO PAVE THE WAY FOR THE NEXT 30 YEARS!
